Press the Start button at the Title or the Demo screens to move to the Game Mode Selection screen. Select the game mode with the + Control Pad, and press the Start button to start the game.

These are the different game modes:

1P GAME MODE

Take on all comers in the non-stop action of the "King of the Fighters" Tournament! Select the character you wish to fight with using the + Control Pad, and press the Start button to select. Then pick the computer character you wish to fight against first.

VS GAME MODE

Battle it out against a friend. Each player selects the character he wishes to fight with. It is possible for both players to select the same character.

COUNT DOWN GAME MODE

In this mode, you choose a character and fight it out for a fixed period of time against opponents who appear one after another, and try to score as high as you can.

- 1 Remaining time
- 2 Score
- 3 Name of the fighter

The game ends when you have defeated all the computer characters, or when time runs out. After the game ends, your score is calculated. There's no life gauge in this mode. Instead, your score decreases each time you're injured by your opponent.

Two types of bonus points may be added to your score.

- 1) If you defeat a computer character in less than 60 seconds, you'll receive extra bonus points (the faster you defeat an opponent, the more points you receive).
- 2) At the end of the match, you receive 5000 points for every opponent you defeated.
